WITH
PREMIUM
TRUE BLUE®
WASHERS

Leak Free Connection

Secure Sealing

Superior Materials

Dearborn Brass offers a complete line of lightweight and dependable plastic tubular products for all installations in 1-1/4" and 1-1/2" sizes. Many components are manufactured in the USA. Dearborn tubular meets the industry standards and provides consistent quality and reliability.

Washers Available in Two Sizes:

1-1/4" x 1-1/2" Reducing Washer

1-1/2" Slip Joint Washer

True Blue premium washers are made of specially formulated Blue TPE material. TPE is flexible, easier to install and provides a secure seal.

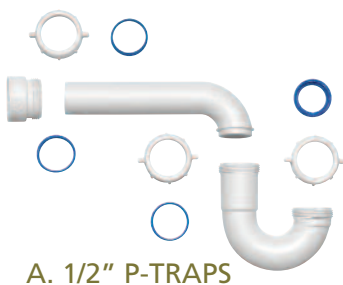

Thermoplastic Elastomers (TPE) advanced formulation prevents drying out and cracking. The material has a superior flex fatigue resistance and extends the life of the product.

The extension tube incorporates a reducing and a slip joint True Blue washer. The washer provides superior sealing power at a lower torque, allowing for a hand tightened connection.

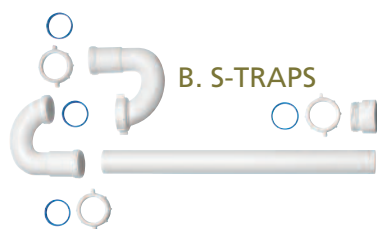

FEATURES

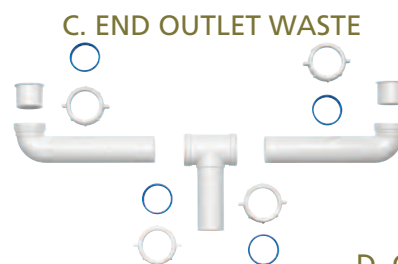

- 1 True Blue Washers fill the gap between the tubing and the nut, when compressed by the nut, creating a tight connection.
- 1 The flexibility of the elastomer washer combined with the tapered design provides ultimate leak protection.
- 1 Thermoplastic Elastomers (TPE) advanced formulation prevents drying out and cracking.
- 1 The material has a superior flex fatigue resistance and extends the life of the product.
- 1 TPE advanced properties allows washer to retain its shape when compared to traditional rubber.
- 1 Long-term leak free connection.
- 1 Washers are manufactured in United States.
- 1 IAPMO Listed.

Brass Tubular and Strainers

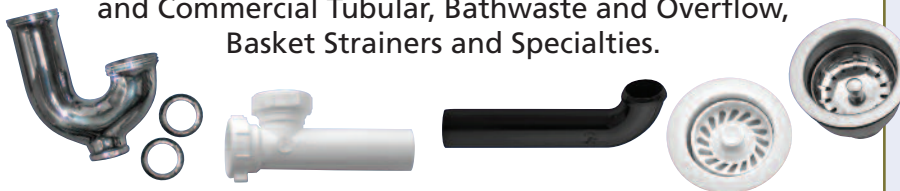

Dearborn Brass offers a wide range of brass tubular products in 1-1/4" and 1-1/2" sizes. Premium quality brass products are available in 17, 20 and budget gauge with chrome or rough brass to fit a variety of needs. Many options are available including hi-line and slip joint connections, brass nuts, deep flanges, ground joints, washer joints and other accessories.

Dearborn Brass has the most comprehensive collection of standard and bar sink strainers in the industry. The assortment includes a full-line of American-made sink strainers, decorator strainers and disposer flanges. Strainers are available in the most popular body styles, including threaded body, locking cup and easy mount. Products are manufactured in a choice of materials including brass, stainless steel, and chip resistant plastic. Dearborn Brass decorator series of plastic strainers and disposer flanges includes all of the preferred finishes.

Dearborn Brass also offers an extensive range of commercial and residential plumbing products including: Brass, Plastic and Commercial Tubular, Bathwaste and Overflow, Basket Strainers and Specialties.
